

# IDEO

---

## FEATURES

---

- Manufactured for the urban transport market, the Ideo seat range is a comfortable and well engineered seat.
- The Ideo shell is a very light monocoque plastic shell and can be used without further structural support.
- Standard blank for seats without grabhandle.
- A tip up seat that compliments the main range.
- Seats can be fitted in back to back format.
- Both upholstery pads are easy to remove using special tools within seconds.
- The Ideo is designed for the European market and the more comfortable Ideo GB, with extra comfort deep cushions for the UK.
- Tested to the RL74/408 EWG, RL 76/115 EWG and RL 95/28 EG standards.
